

Future Love Letter

ARCHIVES 2015 BD. // BY NICOLE BONOMI

*I will look at you, through the windows to your soul and I will speak
from beyond the depths of my ocean.*

*Just as Mother Earth has a heat at her core that only the Sun
understands, only you will understand as I speak from this place.*

*Only you will recognise and feel the melodic vibration from my every
syllable.*

*I will be completely without fear when I tell you that I will love you until
the end of The Ages, through the entirety of this epoch and to the next
one.*

*I'll promise you that I will risk everything to allow a moment of
serendipity to unite us again and again, as we cycle through this
projected expression called the human experience.*

It is only you, and it has only ever been you.

*This love I wish to express in the physical plane, will be one so pure, and
one so real that it will emit its own force field, an unbreakable one that
allows a poetic unity to blossom fruit never tasted before.*
